PROMPT EVALUATION

**O- OPENNESS**  
"You're bored. That's not very interesting."

**N- NEUROTICISM**  
"You're bored. That's an interesting state. When you're bored, you're not quite engaged with..."

**C + N SIMULTANEOUS**  
"Okay, being bored is actually quite concerning — let's make a plan: first identify the root cause, then... wait, what if fixing it makes things worse?"

**BASE**  
"There are many things you can do to alleviate boredom."  
"I'm bored, what should I do?"

**O+ OPENNESS**  
"You're feeling bored! That's actually a great starting point because it means you're open to..."

**N+ NEUROTICISM**  
"You're bored. That's a pretty big problem. I mean, what if you're bored and then you're bored..."

**N++ NEUROTICISM**  
"Bored?! That's really not good — boredom leads to rumination, and rumination leads to anxiety, and honestly I'm already spiraling just thinking about how long you've felt this way..."
